Portfolio vs Whale Positioning

Where You Align with Whales

1. AI Infrastructure - NVDA, TSM, GOOGL positioning matches Cohen/Laffont
2. Cloud Computing - AMZN exposure aligns with Tepper/Cohen
3. Energy Transition - CEG, SEI, BE positions show thematic alignment

Where You Diverge

1. Concentration Risk - Your BE position (16.56%) exceeds typical whale single-stock limits
2. Intel (INTC) - \$24,747 position not heavily featured in whale portfolios
3. Crypto Mining - RIOT, CORZ, HUT, CLSK, CIBR concentration is whale-adjacent but higher risk

Key Insights & Observations

Maximum Overlap Stocks

These positions appear in your portfolio AND multiple whale portfolios:

Symbol	# of Whales	Conviction Level
AMZN	3	Very High
GOOGL	3	Very High
NVDA	2	High
TSM	1	Medium
V	2	High
SPOT	1	Medium

Risk Considerations

1. Crypto Concentration: ~8% in mining stocks (RIOT, CORZ, HUT, CLSK, CIBR) - higher than typical whale exposure
2. Single Stock Risk: Bloom Energy (BE) at 16.56% exceeds prudent diversification
3. Sector Concentration: Energy + Tech = ~60% of portfolio
